SCCC Members Represent at SDGA Event

Spearfish Canyon Country Club was well represented at the South Dakota Golf Association Men's Pre-Senior & Senior Two-Man Championship held at Arrowhead Country Club on September 12-13. Ron Junek teamed up with Arrowhead member Chuck Farrar to finish 5th in the fifth flight. Scott Graslie and Ray Spellman had a very impressive finish as they took home the top prize in the second flight and finished T4th overall. They were able to successfully negotiate the day two modified chapman format as they had the second best score in the entire field.

-Congratulations on your play – SCCC is proud!

PLEASE spend your gift certificates and event credit as soon as possible. All event credit will expire at the end of the year. The pro shop is still very stocked.

Members only – remember you receive and additional 10% off the marked price tags.

All shirts, men's and women's, have been marked down. Also, come check out the exciting new selection of **outerwear!!**

ALL merchandise is on SALE.
15% off all hard goods
20% off all apparel

All members are encouraged to attend the 2009 Annual Meeting. It is scheduled for Thursday, November 12th at 7:00 pm. with complimentary hors d'oeuvres beginning at 6:30pm. It will be held in the Clubhouse.

This year's agenda includes the election of 2 board members, a review of the year's financial statements and the approval of the 2010 budget. If you are interested in serving on our Board of Directors, please speak with a current Board member.

Randy Harms
Ray Spellman
Jerry Erickson
Ron Junek

John Segrist
John Langdell
Tom Engen

Why Must We Wait For

FROST??

- 1) Frost is basically frozen dew that has crystallized on the grass, making it hard and brittle. A grass blade is actually 90 percent water, therefore it also freezes.
- 2) Walking on frost-covered greens causes the plant to break and cell walls to rupture, thereby losing its ability to function normally.
- 3) When damaged, the putting surface weakens and becomes more susceptible to disease and weeds.
- 4) One foursome can leave several hundred foot-prints on each green, causing extensive damage.
- 5) A short delay while the frost melts can preserve the quality of the greens and prevent needless repairs.

Please Follow the Instructions of the SCCC Staff

A very special Thank you to each and every member who participated in our Club Championship. It was a very successful event as we had about 40 players on a tough day – a far better turn out than years before. We also had a very nice crowd for the dinner. Nick and his staff prepared some excellent hors d'oeuvres and the main course received many compliments. Keep this event in mind for next year as we hope to make it even bigger and better.

--Rob & Staff
