Seafood Dinner Social Coming in October

Do You Want to Be Your Club's **CHAMPION??**

It is time to take a little pride in our Country Club. After years of unsatisfactory participation in our club championship – we have raised the stakes. Not only will you be competing for a prize pool with added money, but a steak tip dinner will be included with your \$25.00 entry fee. Also, a commemorative award will be given to each division champion. A simplified, one-day format leaves you with a very easy decision to play. Men will play 27 holes. Women and seniors will play 18 holes. Dinner will cost \$15.00 for non-players. Hors d'oeuvres & Social hour will begin at 5:30pm with Dinner to follow at 6:30pm. Hors d'oeuvres will be complimentary and champagne will accompany the evening.

****So I challenge you to take advantage of this opportunity ****
Thanks...RK

As the Monday Night Couples season comes to an end, we want to extend a very big Thank You to each of the 50+ couples who participated at one time or another. We appreciate all who came out to socialize and, yes, play a little golf. Hope to see you all again in the spring of 2010!
-Bill & Deb Bomberg

Ladies season ending Wine Night Social. Tues., Sept. 15th @ 5:30pm. Entrée and wine pairing event followed by dessert. Open to all Lady members. Please RSVP @ 722-4766.

There are still many great items available for sale in the pro shop. Come in and check out the great selection of men's and women's clothing and footwear. We also have our 2009 outerwear arriving this very soon. If clothing is not what you are looking for, come in and spend your Event Credit on our remaining selection of Drivers, Wedges, and Putters. A Titleist Prov1 and Nike ONE Vapor Sale should also spark your interest.

PLEASE SPEND YOUR EVENT CREDIT ASAP!!

Why Must We Wait For

FROST??

- 1) Frost is basically frozen dew that has crystallized on the grass, making it hard and brittle. A grass blade is actually 90 percent water, therefore it also freezes.
- 2) Walking on frost-covered greens causes the plant to break and cell walls to rupture, thereby losing its ability to function normally.
- 3) When damaged, the putting surface weakens and becomes more susceptible to disease and weeds.
- 4) One foursome can leave several hundred foot-prints on each green, causing extensive damage.
- 5) A short delay while the frost melts can preserve the quality of the greens and prevent needless repairs.

**Please Follow the
Instructions of the SCCC
Staff**
